

The TASER™ Instructor Course was developed and intended for law enforcement and correctional use. However, we recognize that there is a need for TASER electronic control device (ECD) training in professional security and bond recovery firms, as well as other professional organizations that work in a law enforcement support role.

To be considered for enrollment in a TASER Instructor course, the following information must be provided:

1. A written request that must include the reason you would like to obtain an instructor certification on TASER ECDs.
2. Your company information along with website address and licenses.
3. The request must be in writing and mailed or faxed on company letterhead to:

TASER International, Inc.  
Attn: Training Department  
17800 N. 85<sup>th</sup> Street  
Scottsdale, AZ 85255-9603

Fax: 480-905-2034

4. The letter must include a copy of the agency license and state issued photo identification.
5. The letter must include the following statement with signature of company officer or director:

"I understand that this TASER Instructor Certification course will allow those individuals being trained to instruct within our own agency. It is also understood that no outside training is permitted with this certification without the prior authorization of TASER International."

Upon successful completion of the TASER training course, the attendee will receive a TASER Security Instructor Certificate. The TASER Security Instructor Certificate will contain the following conditions and limitations:

- a. The TASER Instructor Certificate is valid for two (2) years from the date of issue;
- b. The instructor is certified to teach non-sworn security personnel or bail recovery agents only. They are not authorized to train sworn law enforcement officers;
- c. The instructor is responsible for knowing the legal limits for use of TASER Electronic Control Devices by security and bail recovery personnel in all states in which they are instructing. The TASER Instructor course does not address these laws. It is the instructor's responsibility to research the laws and pass that information on in their courses; and
- d. The instructor understands that the TASER instructor course is not intended to teach tactics – merely how the ECDs work and recommendations on the best performance of the ECD.

Please contact TASER International with any questions at 800-978-2737 option #7.
