Shorten Report Writing Time

Many police agencies, such as Lake Havasu PD, have already integrated AXON records into the reporting system. Lake Havasu officers now can just direct others to view the AXON recording on EVIDENCE.COM instead of writing tedious reports.

More Organized

With EVIDENCE.COM, Lake Havasu PD was able to eliminate the messy process of categorizing and labeling tapes and recordings. AXON videos are automatically updated into EVIDENCE.COM, where officers can use a universal search bar to easily find the video they are looking for. Lake Havasu not only used EVIDENCE.COM for videos, but also used it to upload all documents related to a case so that information is organized.

More Compelling Evidence

Lake Havasu officers noted that Point-of-View video created compelling evidence from the officer's perspective. 93% of complaints are dismissed with video evidence.²

“Instead of having to get pulled in for the day and being interviewed [due to a complaint] and go through a very time consuming sit down process, they were just able to just watch the video and tell the civilian what they saw.”
