

**TASER International, in Conjunction with the FBI National Academy Association
Presents**

**TASER®: Use of Force, Risk Management and Legal Strategies Seminars
For Chiefs, Sheriffs, Risk Managers and Legal Advisors**

TASER International, through the TASER Training Academy and in conjunction with the FBI National Academy Association, has put together a two-day program specifically designed for law enforcement executives and government risk managers, legal counsels and medical advisors. Topics covered include an overview of TASER electronic control devices, use-of-force legal and policy issues, medical information and risk mitigation.

Attendees will receive substantial factual information as to how TASER electronic control devices incapacitate individuals, how these devices fit into law enforcement use-of-force deployment strategies, training considerations, various policy recommendations (including IACP, PERF and others), what medical studies are being performed and the current findings, the effects of TASER devices on liability exposures and on reducing officers' and suspects' injuries.

Prerequisites: Attendance to this course is limited to current law enforcement executives and their designees, government legal counsels, risk managers and medical advisors.

Cost: Because the information contained in this presentation is of critical importance to law enforcement agencies everywhere, we have decided to offer these seminars free of charge in order to make it available to as many agencies as possible.

See the following page for dates and locations.

When you have chosen a seminar location, go to the Training Events Calendar on the website and click on the state where the seminar is being held (for the Vancouver seminar, go to Washington state.) Then go to the date of the seminar and click on Executive Seminar. Click on the registration form, print it, fill it out and fax it to the number on the bottom of the form.

Call (800) 978-2737 ext. 2072 for assistance.
